

Make a Kite in Four Easy Steps!!!

Step 1.
Tape kite sticks to kite at points A. Be sure to fold tape over the edge of the kite.

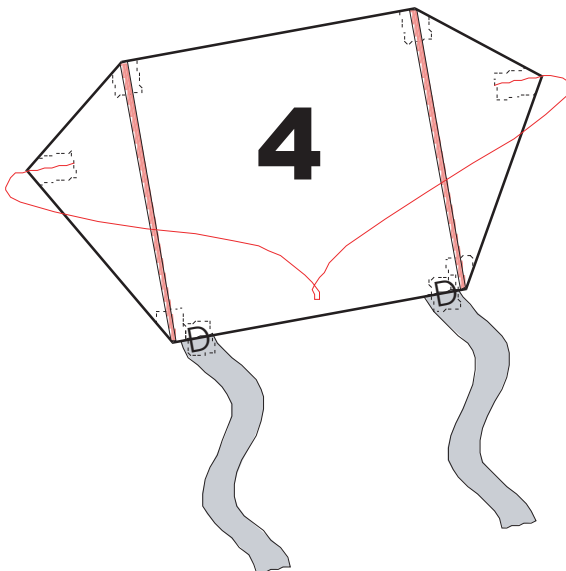

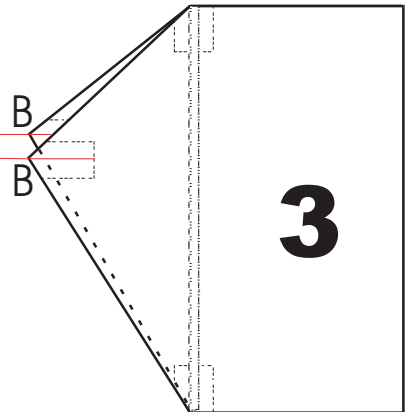

Step 2.
Tape 30' long bridle string to kite at points B. Be sure to fold the corners of the tape over the edge of the kite.

Step 3.

Bring points B together with the straws on the inside of the kite. With points B held together find the middle of the bridle string and tie an overhand knot about one inch from the end of the bridle at point C.

Step 4.
Attach two 36" long tails at with tape at points D and your new kite is ready to fly!
